NOTE: Plans that did not have data available are not included in star ratings. They are listed as an option in the availability section.

Ratings are based on a comparison of plan rates to statewide averages. **Quality** ratings are from information submitted by the health plans. **Patient Experience** ratings are from a member survey conducted for the New York State Department of Health. Results for measures that involve children and adolescents are based on both Medicaid and Child Health Plus members.

The quality of care measures used in this guide represent some, but not all of the measures from health plans. For additional information about the individual measures used in each category, as well as other quality of care measures available, please see the New York State Department of Health website: health.ny.gov/PlanRatings
