

Health Plans *in Long Island*

Basic Services

All health plans provide the same physical health care services such as — doctor visits, hospital stays, emergency care, dental care, vision care, medications and other basic health care.

Other Services

Health plans provide mental health, substance use services and nursing home stays. Plans cover home and community-based services for members who are eligible for these services.

Doctors & Hospitals

Health plans work with a group of doctors, clinics, hospitals and other service providers. Our counselors can tell you if a health plan works with a doctor or other provider you see now.

HIV Special Needs Plans

The HIV Special Need Plan (HIV SNP) listed below is available to people who are living with HIV or who are transgender or qualify as homeless. Dependent children can also enroll in an HIV Special Needs Plan with their parents. HIV SNPs cover all basic health care services and specialty services that are important to people living with or at risk for HIV/AIDS.
