

Health Plans *in Long Island*

Basic Services

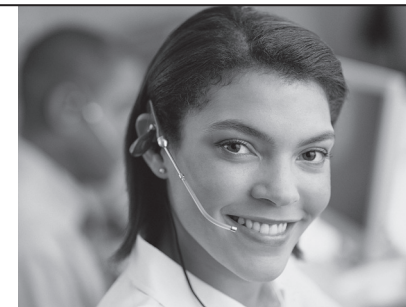

All health plans provide the same physical health care services such as — doctor visits, hospital stays, emergency care, dental care, vision care, medications and other basic health care.

Other Services

Health plans provide mental health, substance use services and nursing home stays. Plans cover home and community-based services for members who are eligible for these services.

Doctors & Hospitals

Health plans work with a group of doctors, clinics, hospitals and other service providers. Our counselors can tell you if a health plan works with a doctor or other provider you see now.
